

FY '09 Project Requests

Transportation/HUD			
Requester	Project Name	Amount Requested	Program Description
Blackburn College	Science Building Wiring, Ventilation and Plumbing	2000000	Funding for this project would be used for the replacement of the wiring, ventilation and plumbing systems of the Science Facility at Blackburn College.
Calhoun County	Highway 1 Resurfacing	2250000	Funding would be used for resurfacing a portion of Highway 1 in Calhoun County. Highway 1 is the main thoroughfare through Calhoun County.
Calhoun County	County Office Consolidation	3000000	Funding for this project would be used for the refurbishing of an existing building in Hardin County, to centralize county offices into one building.
City of East Moline	East Moline Riverfront Development Assistance	675000	Funding for this project is for the development of the riverfront in East Moline, including repairing levees and berms, as part of economic development efforts.
City of East Moline	East Moline Downtown Improvements	475000	Funding would be used for the development of downtown East Moline, including the acquisition and renovation of dilapidated structures, as part of economic development efforts.
City of Galesburg	N. Seminary Street Bridge Grade Separation	2484000	Funding would be used for the construction of a new railroad grade separation bridge on North Seminary Street over the BNSF Railway.
City of Galesburg	Soangetaha Bridge Grade Separation	2474000	Funding for this project will be used to replace the railroad grade separation bridge on Soangetaha Road over the BNSF Railway.
City of Galesburg	W. Main St. (US 150) Bridge Grade Separation	2500000	Funding for this project would be used for right-of-way acquisition for the construction of a new railroad grade separation bridge on West Main Street over the BNSF Railway.
City of Galesburg	E. Main St. (US 150) Underpass	2500000	Funding for this project would be used for the preliminary engineering for the construction of a new railroad grade underpass on East Main Street under the BNSF Railway.
City of Galesburg	South Storey Lake Road Bike Trail Extension	280000	Funding for this project would be used for preliminary engineering, utility relocation and right-of-way acquisition for a bike trail extension on South Lake Storey Road in Galesburg, Illinois.
City of Galesburg	Logistics Park East Entrance	661000	Funding for this project would be used for the construction of an intersection for the ease entrance road into Logistics Industrial Park on Galesburg, Illinois to increase interest in investment in the park.
City of Keithsburg	Marina Project	700000	Funding would be used for the development of a boat marina in Keithsburg.

FY '09 Project Requests

Transportation/HUD - cont.			
City of Moline	I-74 Corridor Construction	5000000	Funding would be used for right-of-way acquisition for the I-74 Bridge Corridor construction project.
City of Morrison	Highway 30/Union Pacific Separation Grade	3812000	Funding for this project would be used for the construction of a new railroad grade separation overpass in Morrison, Illinois over the Union Pacific Railway.
City of Rock Island	Illinois Route 92 Center Segment - Rock Island	325000	Funding for this project would be used for the development of the center segment of Route 92.
City of Rock Island	Armory Park - Upper Riverfront Promenade	500000	Funding for this project would be used for the construction of a promenade in Armory Park in Rock Island, Illinois, as part of economic development efforts.
City of Rock Island	Rivervision Bi-State Water Taxi	1750000	Funding for this project would be used for the purchase of one vessel and the construction of landing docks for a bi-state water taxi between Rock Island, Illinois and Davenport, Iowa.
Decatur Park District	Lake Decatur Lakefront Development	100000	Funding would be used for initial planning and concept design of the lakefront at lake Decatur as part of an economic development efforts.
Decatur Park District	Twin Bridge Road (U.S. 36) Improvement	2135000	Funding for this project will be used to improve a segment of Twin Bridge Road and U.S. Route 36 to provide adequate truck and regular vehicle access to the Decatur Airport.
Decatur Park District	Big Creek Barn Revitalization	100000	Funding for this project would be used for the revitalization of the Big Creek Barn Riding Center, including the replacement of siding, windows, and roof structures.
IL Quad City Chamber Foundation/East Rock River Corridor Study	Feasibility study for East Rock River Corridor bridge project	1500000	Funding for this project would be used for a study to analyze the construction of a bridge from John Deere Road/IL 5 across the Rock River.
Illinois DOT	Quad Cities Amtrak Service	13500000	Funding would be used for track and capital investment for reestablishing rail service between the Quad Cities and Chicago.
Macoupin County Highway Department	County Highway 14/Bunker Hill Road	2500000	Funding for this project would be used for the reconstruction and realignment of Brighton-Bunker Hill Road on County Highway 14 in Carlinville, Illinois, including widening the pavement/shoulders and upgrading the pavement.
MetroLINK	Rock Island MetroLINK Transit Maintenance Facility	5000000	Funding would be used to allow MetroLINK to construct a new 110,000 square foot state-of-the-art Transit Maintenance Facility.
Mid-America Intermodal	Railway Spur Construction	3350000	Funding for this project would be used for rail construction from an adjacent bio-diesel plant tying into a terminal loading facility for the Mid America Regional Port located in the South Quincy Development District in Quincy, Illinois.
National Railroad Hall of Fame - Julie King	National Railroad Hall of Fame	100000	Funding for this project would be used for the final concept design phase for the National Railroad Hall of Fame.

FY '09 Project Requests

Transportation/HUD - cont.			
The Nature Conservancy/Fulton County Public Works and Highways Department	Emiquon Preserve Public Access Project	1355380	Funding for this project will be used to design and build a public access area to the Nature Conservancy's Emiquon Preserve.
Warren County	Annex Building Renovation	410000	Funding would be used for the renovation of the Warren County Annex building, to relocate non-judicial offices into one building.
Whiteside County Enterprise Zone	U.S. Route 30 Four lane development-Whiteside County	1500000	Funding for this project would be used to create a four-lane route Highway 30 from Rock Falls to Fulton, Illinois.
Energy and Water			
Requester	Project Name	Amount Requested	Project Description
City of Quincy	Quincy Hydro-Electric	500000	Funding for this project would be used to assist the City of Quincy in obtaining licenses needed to construct hydroelectric generation facilities at Locks and Dams #20, #21, and #22 to provide clean, efficient and renewable energy to surrounding communities.
Mercer County	Mercer County Partnership Wind Project	1000000	Funding for this project would be used for the construction and equipment purchase for Phase II and III of the Mercer County Partnership Wind Project, which will provide clean, renewable energy for multiple government units in Mercer County.
U.S. Army Corps of Engineers (RI)	Quincy Bay Ecosystem Restoration	900000	Funding for this project would be used for maintenance dredging in lower/middle Quincy Bay and modification to the access channel.
U.S. Army Corps of Engineers (RI)	Village of Andalusia Harbor Dredging	150000	Funding for this project would be used to perform maintenance dredging in Andalusia Harbor, to remove sediment that has rendered the harbor and marina inaccessible.
U.S. Army Corps of Engineers (RI)	Mill Creek Slough	500000	Funding for this project would be used to remove/clean out sediment and debris in the diversion channel of Mill Creek, to remove blockages that are causing elevated water levels at the local wastewater treatment facility.
U.S. Army Corps of Engineers (RI)	Sunset Marina Improvements	500000	Funding for this project would be used to allow the Army Corps to construct an emergent dike in Sunset Marina, to reduce shoaling and the frequency of maintenance dredging in the harbor entrance.
U.S. Army Corps of Engineers (RI)	Emiquon East	210000	Funding for this project would allow the Army Corps of Engineers to continue working with the Nature Conservancy to turn roughly 7,100 acres of the Thompson Drainage and Levee District into a restored wetland.

FY '09 Project Requests

Energy and Water - cont.			
U.S. Army Corps of Engineers (RI)	Upper Mississippi River System - Comprehensive Plan for Flood Control	500000	Funding would be used to continue the evaluation of plans for system flood damage reduction on the Upper Mississippi River.
U.S. Army Corps of Engineers (RI)	Upper Mississippi River - Illinois Waterway System, IL, IA, MN, MO & WI	50000000	Funding for this project would be used to provide for the first phases of construction of new 1,200 foot lock chambers at L/Ds 20, 21, 22, 24, 25, LaGrange and Peoria; implement small-scale navigation aids; and begin ecosystem restoration projects along the Mississippi River and Illinois Waterway. This program is also known as the Navigational and Ecosystem Sustainability Program.
U.S. Army Corps of Engineers (RI)	Upper Mississippi River Restoration IL, IA, MN, MO & WI	20000000	Funding would be used to address adverse impacts to the aquatic ecosystem caused by maintenance of the river's navigation channel. This includes habitat rehabilitation and enhancement projects that are effectively preserving and improving fish and wildlife habitat on the river.
U.S. Army Corps of Engineers (STL)	Illinois Waterway	2566000	Funding for this project would be used to maintain Army Corps projects on the Illinois Waterway, including a nine-foot navigation channel through dredging and associated channel patrol, water control, operations, maintenance, and environmental work.
U.S. Army Corps of Engineers (STL)	the Mississippi River Between Missouri River and Minneapolis, Minnesota (Upper River)	48575000	Funding for this project would be used to maintain Army Corps projects on the Mississippi River Between Missouri River and Minneapolis, Minnesota (Upper River). Projects include maintaining a nine-foot navigation channel, dredging, locks and dams, dike and revetment, and environmental stewardship.
Labor, HHS, Ed			
Requester	Project Name	Amount Requested	Project Description
Augustana College	Longfellow Elementary Liberal Arts Partnership	300000	Funding is requested for the Longfellow Elementary Liberal Arts Partnership between faculty and students at Augustana and the elementary school to incorporate liberal arts and science across the K-6 curriculum.
Augustana College	Service Learning in High Need Communities	310000	Funding would be used to place students in service-learning internships with the local community to fulfill demonstrated needs in the community.
Augustana College	Senior Inquiry Summer Research Project	220000	Funding would be used to expand the College's Senior Inquiry research projects, in which students work with faculty on projects in biology, medicine, biochemistry, history, and other disciplines.

FY '09 Project Requests

Labor, HHS, Ed - <i>cont.</i>			
Blackburn College	Science Facility Instrumentation	540000	Funding would be used for new instrumentation (instructional laboratory equipment, desk top computers, main frame for computer laboratory, etc.) to accommodate expansion of the College's physical and natural science programs and address increased enrollment.
Blackhawk College - Moline	Meeting the Challenges of Advanced Engineering/Manufacturing Technology Education	839000	Funding is requested to upgrade Black Hawk College's engineering technology curriculum and laboratory to meet workforce challenges of the 21st Century.
Blackhawk College - Moline	Illinois Community College Sustainability Network	1850000	The IL Community College Sustainability Network is a collaboration between 7 IL Community Colleges (Black Hawk, Heartland, Kankakee, Lewis & Clark, John A. Logan, Wilbur Wright, and Olive Harvey). Funding would be used to strengthen Illinois community colleges' capacity to promote and provide energy research, education and sustainable practices in their districts across Illinois.
Community Health Care, Inc. - Quad Cities	Community Health Care Emergency Management Project	250000	Funding would be used for emergency power generators, medical equipment and tenant improvements for a new public health facility in Moline, IL.
Community Health Improvement Center-Decatur	CHIC Space Renovation and Equipment	150000	Funding would be used for equipment and the renovation of the public health center to better serve the low-income and uninsured residents of central Illinois.
Easter Seals-UCP (d.b.a. Easter Seals Peoria-Bloomington)	Information Technology for Rural Services Provision	625000	Funding is requested to help Easter Seals establish an integrated client services management and communication system to provide more essential services to children and adults with disabilities and their families across thirty-one counties in Central Illinois.
Hillcrest Home, Henry County	Nursing Home Expansion	250000	Funding would be used for Phase I Expansion of the nursing home, which includes the demolition of the poor farm building.
Macoupin County Public Health Department	Macoupin County Public Health Department Community Health Initiative	750000	Funding would be used for a new public health clinic in Carlinville, IL that will provide comprehensive interdisciplinary prevention and public health services to all residents, with special outreach to the uninsured and underserved.
Memorial Hospital - Carthage	vascular disease diagnostic services (ultrasound and CT Scanner)	1160000	Funding would be used to improve the hospital's vascular disease diagnostic services through the purchase of an Acuson ultrasound and a 64-slice CT scanner.
Memorial Medical Center- Springfield	Intelligent Pharmacy and Automated Drug Management System	1000000	Funding is requested to implement the technology to provide the bar-code footprint needed for a close-loop medication system and automated storage, and dispensing and return processes. Implementation of this technology promotes safety for patients and caregivers, while improving practices and systems at the hospital.

FY '09 Project Requests

Labor, HHS, Ed - cont.			
Memorial Medical Center-Springfield	Equipment for High Def Urologic Surgery System	500000	Funding would be used to develop a high-definition visualization urologic surgery system to improve endoscopic surgery, diagnosis and treatment in urology.
Mercer County Hospital - Aledo	Mercer County Hospital Renovation Project	250000	Funding would be used to renovate the existing facility which is over 25 years old. Much of the infrastructure, such as the heating, cooling and mechanical systems are near the end of their life cycles. The State will not allow the hospital to continue seeing patients in the existing facility.
OSF Healthcare System	Electronic Health Records Initiative	2000000	Funding would be used to adopt, install and expand an Electronic Health Records (HER) System to build on a central data repository that stores clinical, financial, demographic, and operational information about patients.
Quincy University	On Campus Handicapped Accessibility Improvements	250000	Funding would be used to provide handicapped accessibility to the University's library and adjacent areas.
Quincy University	Science & Environmental Research Center	1000000	Funding would be used for equipment, instrumentation and curriculum needed to develop a Science and Environmental Research Center at the University.
Reach Out and Read National Center	National Reach Out and Read Program	10000000	Funding is requested to maintain and expand the national Reach Out and Read (ROR) early language development and literacy program.
Reading is Fundamental	Reading is Fundamental Program	26000000	Reading is Fundamental prepares children to read by delivering free books and literacy resources to those children who need them most.
Richland Community College - Decatur	Workforce Development Center for Ethanol/Bio-diesel Process Technology Training	990000	Funding is requested to further develop an alternative fuels degree program to train workers for the emerging biofuel industry in Illinois.
Richland Community College - Decatur	Joint-Use LEED Facility with University of Illinois (sustainable environment education center)	750000	Funding is requested for a sustainable environment education program in the first LEED certified building in central Illinois.
Richland Community College - Decatur	Culinary Arts Institute	400000	Funding would be used to develop a culinary arts institute at Richland Community College to respond to industry and community needs.
Richland Community College - Decatur	Global Agribusiness Center	720000	Funding would be used to develop learning resources to meet the education and training demands of students and businesses by developing new educational curriculum in biological science, food security, bio-fuel production and process technologies.
Rock Island County Care Center	Rock Island County Care Center Facility Construction	1000000	Funding would be used to construct a new 245-bed facility to replace the existing facility that does not meet life safety codes and whose rural location makes it difficult for families to be involved in the treatment of the resident population.
Spoon River College - Canton	Innovation and Entrepreneurship Program	150000	Funding is requested to establish a rural Innovation and Entrepreneurship program at Spoon River. This program will provide the training, support, and assistance to help students develop entrepreneurial skills for small business development in rural America.

FY '09 Project Requests

Agriculture			
Requester	Project Name	Amount Requested	Project Description
Springfield College in Illinois	Illinois First Responders Education Initiative	500000	Funding would be used to continue and expand the existing First Responders education program to Iraq and Afghanistan veterans and first responders throughout central Illinois.
Archer-Daniels Midland Company	Evaluating Solid Fats in the American Diet	5000000	Funding would be used for a comprehensive clinical trial to evaluate the health aspects of consuming different solid fat alternatives as a way to address heart disease.
Commerce, Justice, Science			
Requester	Project Name	Amount Requested	Project Description
Project Success of Decatur and Macon County	Truancy Prevention and School Success Program	179489	Funding would be used to implement truancy prevention/intervention programming for public school children in grades k-8 in seven elementary and two middle schools in Decatur, IL.
YWCA Canton and YWCA Sauk Valley	Women's Economic Empowerment Initiative	500000	Funding would be used to improve the economic position and employability for victims of domestic violence through financial literacy, computer training, and career preparation.
Defense			
Requester	Project Name	Amount Requested	Project Description
ALION Science & Technology Center	Illinois Center for Defense Manufacturing	6000000	The IL Center for Defense Manufacturing proposes to expand the center's operations to the Quad Cities, IL area. The center runs a two-part program focused on bringing small businesses into defense supply chain and research and development of innovative manufacturing technologies, including titanium production.
John Deere Davenport Works	Tractor, Rubber Tired, Articulated Steering, Multi-Purpose (TRAM)	5000000	Funding will be used to accelerate the procurement of additional replacement TRAMS, a rough terrain forklift/loader used in Iraq and post-Hurricane Katrina disaster relief activities.
Quad City Development Group	Moline Bridge Repair	4300000	Funding will be used to repair the Moline Bridge – the primary access control point (ACP) for the Rock Island Arsenal – which an inspection found numerous and significant structural damage.

FY '09 Project Requests

Defense - cont.			
Rock Island Arsenal	Building 299 Roof Replacement	6400000	The original roof on Building 299 has severely deteriorated and poses a serious safety and health hazard for employees. Funding will be used to complete the roof replacement project and properly dispose of all asbestos-containing roof components.
Rock Island Arsenal	Rock Island Arsenal Industrial Preparedness Items	7900000	This request will procure cutting-edge equipment to improve and increase manufacturing capabilities at the RIA-Joint Manufacturing Center (JMTC) in support of continued operations in Iraq & Afghanistan.
Rock Island Arsenal/Quad City Development Group	Arsenal Support Program Initiative (ASPI) at Rock Island Arsenal	8500000	The ASPI program at Rock Island Arsenal promotes the commercial use of underutilized capacity at the arsenal's facilities thereby reducing overhead and operating costs at the Arsenal and bringing a healthy return on investment.
Interior			
Requester	Project Name	Amount Requested	Project Description
City of Carthage, IL/Carthage Memorial Hospital	Water & Sewer Extension to New Hospital	1500000	The funding would be used to extend water and sewer infrastructure to a new hospital and industrial park.
City of East Moline, IL	IL 1-80/1-88 Sewer Development	3500000	The funding would be used to extend water and sewer infrastructure to a new industrial park.
City of East Moline, IL	General Flood & Stormwater Mitigation Improvements	2450000	The funding would be used to improve stormwater management and flood mitigation.
City of East Moline, IL	General Wastewater System Improvements	7290000	The funding would be used to update wastewater treatment facilities for East Moline.
City of East Moline, IL	General Water System Improvements	7050000	The funding would be used to improve drinking water treatment for East Moline.
City of East Moline, IL	Babcock-Meersman Water & Sewer Infrastructure Replacement	1000000	The funding would be used to replace sand point wells in an economically distressed area of East Moline.

FY '09 Project Requests

Interior - cont.			
City of Galesburg, IL	One Million Gallon Water Tower-Galesburg Logistics Park	500000	The funding would be used to provide adequate water storage for Galesburg.
City of Galesburg, IL	Water Treatment Facility	1000000	The funding would be used for a replacement water treatment facility.
City of Galesburg, IL	Water Pipeline Replacement	500000	The funding would be used to repair the water pipeline between the pumping and treatment facility.
City of Litchfield, IL	Lake Yaeger Flood Control/Water Supply	3300000	The funding would be used to clean out and maintain the lake's silt basin, ensuring safe access to the City's water supply.
City of Moline & City of Rock Island, IL	Water System Connections	75000	The funding would be used to provide redundancy between Moline and Rock Island drinking water facilities.
City of Rock Island, IL	First Avenue Sewer Interceptor	1430000	The funding would be used to comply with IEPA mandates for storm water management.
City of Silvis, IL	Sewer Service for Fair Acres	250000	The funding would be used to extend sewer service to a low- to moderate-income housing subdivision on failing septic systems.
Village of Carbon Cliff, IL	Downtown Drainage	2035000	The funding would be used to manage stormwater drainage for Carbon Cliff.
Village of Kirkwood, IL	Wastewater Treatment & Collection System Improvements	1045000	The funding would be used to improve wastewater treatment to comply with IEPA violation notices.
Village of Kirkwood, IL	Standby Power for Water Plant	30800	The funding would be used to provide emergency back-up for pumping operations.
Village of Kirkwood, IL	Well & Appurtenances	163000	The funding would be used to drill and equip a new well to meet increased demand.
Village of Milan, IL	Elevated Water Storage Facility	125000	The funding would be used to provide adequate water storage for Milan.
Village of Milan, IL	Business Park Water Main Extension	132000	The funding would be used to provide infrastructure services for a new industrial area.
Village of Viola, IL	Wastewater Treatment Plant Update	981750	The funding would be used to assist Viola in complying with IEPA mandates for water treatment.
